This is an informational notification to Molina Healthcare of California (MHC) network providers regarding the new Behavioral Health (BH) Toolkit.

What you need to know:

To support providers in offering best practice behavioral health interventions in the health care setting, the Behavioral Health (BH) Toolkit for Providers has been updated on the MHC public Provider website at: https://www.molinahealthcare.com/

Our BH Toolkit for Providers highlights common conditions that may present in various health care settings, including recommended standardized screening and assessment tools, interventions, and resources.

The enhanced BH Toolkit includes newly added conditions for consideration and updated resources to support the delivery of best practices and standards of care to this population.

Some of the updates include:

1. **NEW!** Addition of the Maternal Mental Health Chapter.
2. **NEW!** Addition of the PsychHub access link, information, and applicable/supporting PsychHub training opportunities associated with each chapter/topic (on each page).
3. **UPDATED**: External resources, population statistics, and an overall refresh of clinical standard practices and recommendations.
