# Background

- Effective January 1, 2023, Molina Healthcare of California (MHC) is required to provide doula services for prenatal, perinatal, and postpartum members.
- Doula services can be provided virtually or in person with locations in any setting, including, but not limited to, homes, office visits, hospitals, or alternative birth centers.
- On November 1, 2023, the Department of Health Care Services (DHCS) issued a statewide standing recommendation that all Medi-Cal members who are pregnant or were pregnant within the past year would benefit from receiving doula services from a Medi-Cal enrolled doula provider.
  - The recommendation fulfills the federal requirement for a physician or other licensed practitioner of the health arts acting within their scope of practice to provide a written recommendation for preventive services.

# Doula Services Process Flow

# Doula Support & Qualifications

## Molina Healthcare Doula Support

- MHC will provide doulas with all initial, necessary, and ongoing training and resources relevant to MHC services and processes for members and doulas.

## Minimum Qualifications

- All doulas must be:
  - At least 18 years old
  - Provide proof of an adult and infant cardiopulmonary resuscitation (i.e., CPR) certification from the American Red Cross or American Heart Association and attest to completing basic Health Insurance Portability and Accountability Act (HIPAA) Training
- Qualified to offer services by following either the Training or Experience Pathway and continue to meet the Continuing Education requirements

# Training and Education

## TRAINING PATHWAY

- Certificate of Completion for a minimum of 16 hours of training, which includes all of the following topics:
  - Lactation support
  - Childbirth education
  - Foundations on the anatomy of pregnancy and childbirth
  - Nonmedical comfort measures, prenatal support, and labor support techniques
  - Development of a community resource list
- Attest to providing support at a minimum of three births

## EXPERIENCE PATHWAY

- Attest to providing at least five years of volunteer or paid services in the capacity of a doula within the last seven years
- Three written client testimonial letters or professional letters of recommendation written in the last seven years from any of the following:
  - A physician, licensed behavioral health provider, nurse practitioner, nurse midwife, licensed midwife, enrolled doula, or community-based organization. One letter must be from either a licensed provider, a community-based organization, or an enrolled doula

## CONTINUING EDUCATION

- Complete three hours of continuing education in maternal, perinatal, and/or infant care every three years
- Provide evidence of completed training to the DHCS upon request

# Molina Healthcare Doula Enrollment

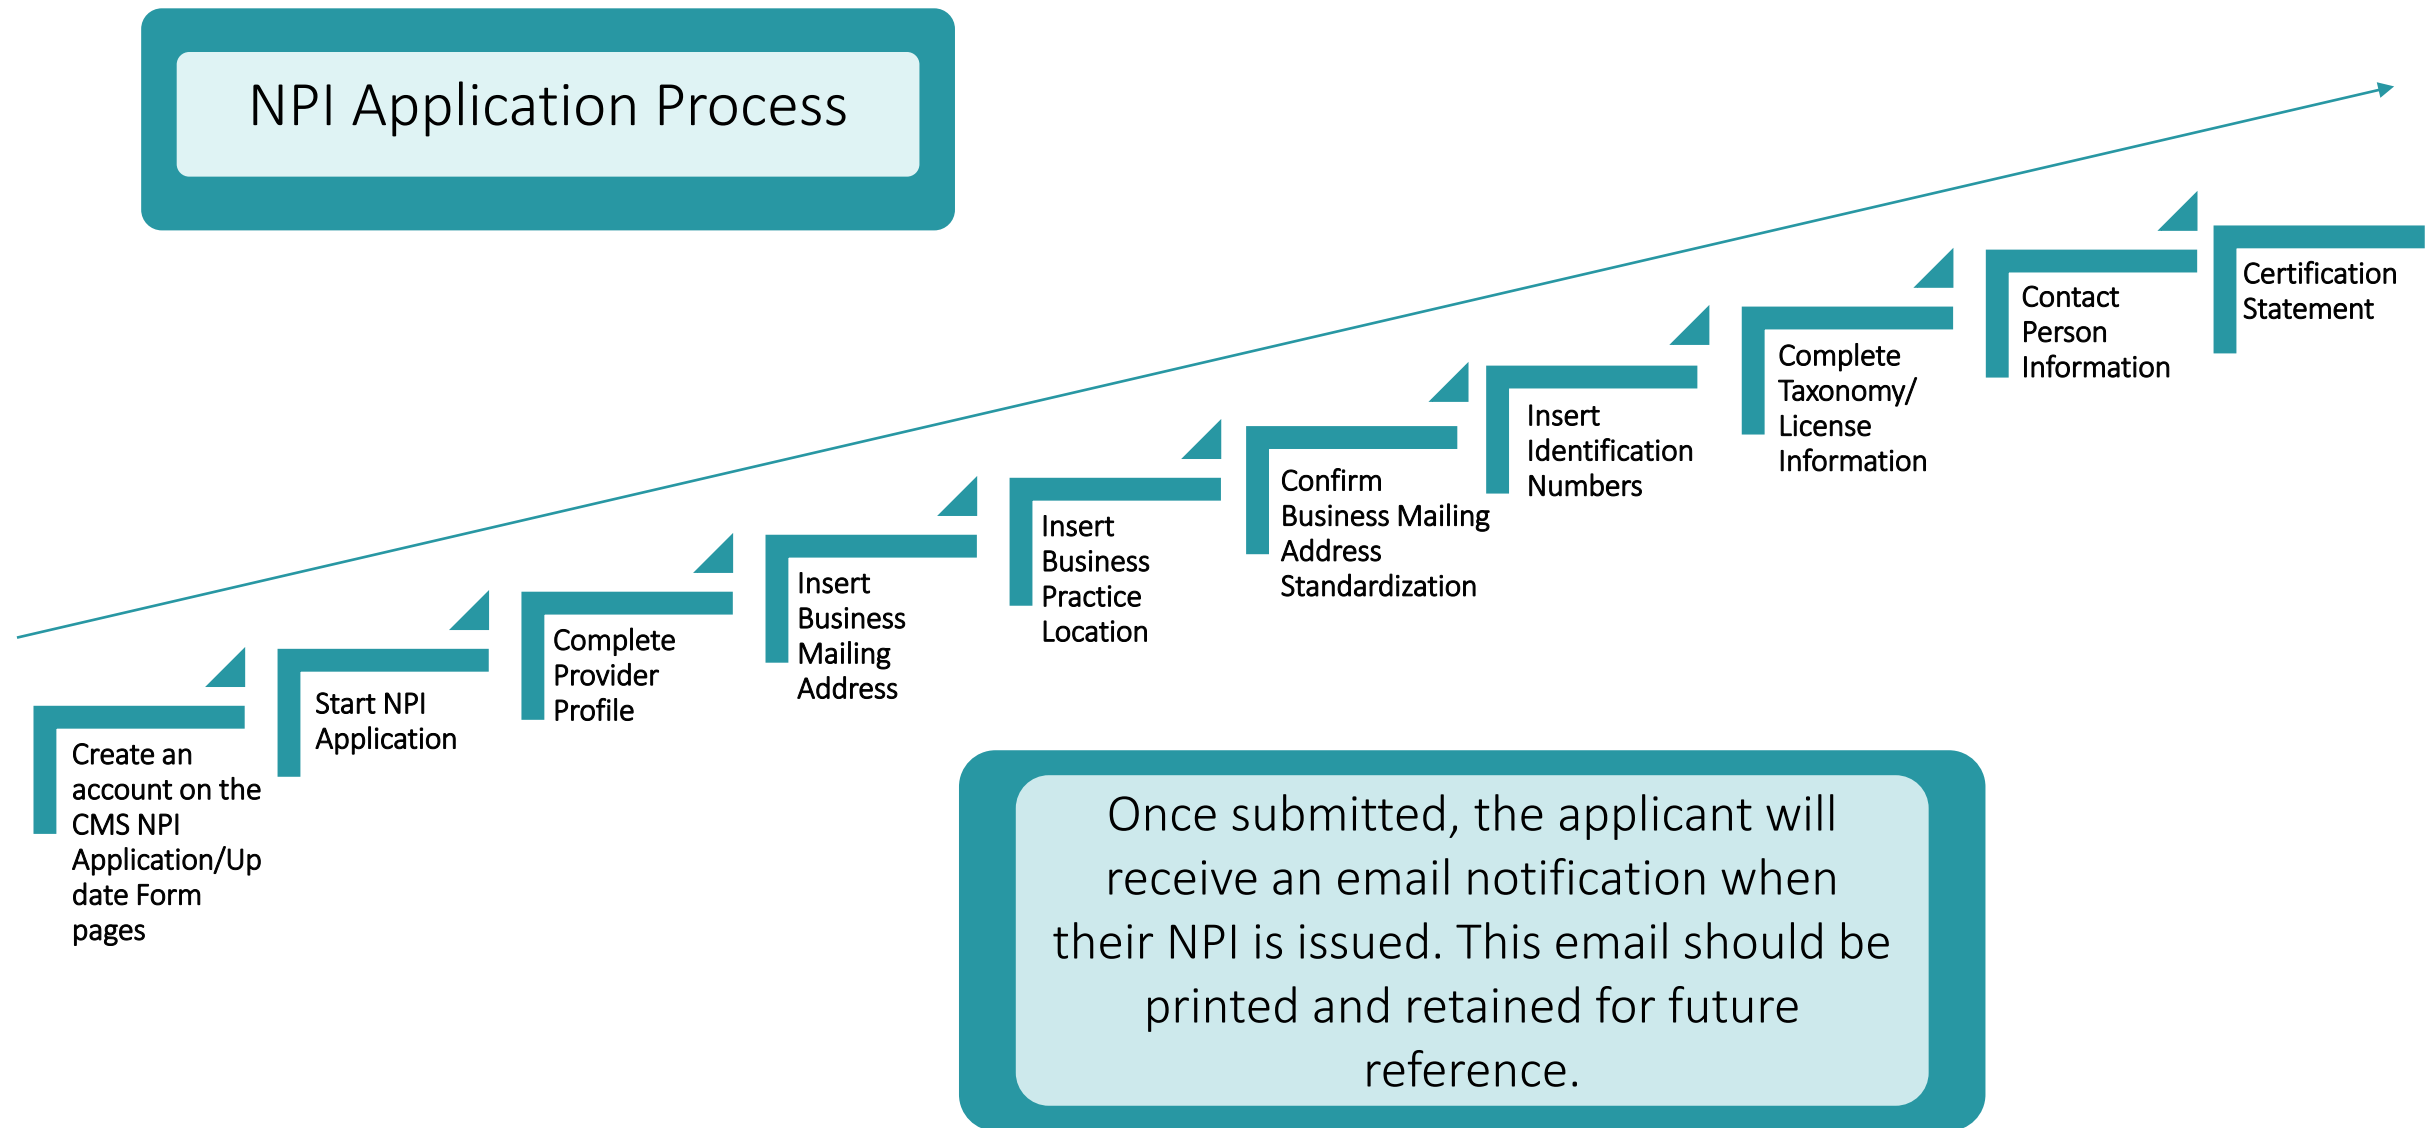

## ENROLLMENT REQUIREMENTS

- Doula Providers are required to enroll as Medi-Cal Providers.
- Doulas who wish to provide services to MCH members will need to meet minimum qualifications, obtain a National Provider Identifier (NPI) number, enroll via the DHCS Medi-Cal Provider Application and Validation Enrollment (PAVE) process, and have a contract with MHC.
- A contract with MHC will allow doulas to receive reimbursement for services provided to MHC members.

## NPI OVERVIEW

- NPI is a 10-digit numeric identifier that is permanently assigned to a health care provider by the Centers for Medicare & Medicaid Services (CMS).
- Doulas must include their NPI on electronic claim transactions for health care billing, reimbursement, and all other documentation.
- Applying for an NPI is free, easy, and typically takes 20 to 30 minutes to complete.
- Organizations can apply online or by mail through the [CMS NPI Application/Update Form page](#).

# National Provider Identifier (NPI)

# Doula Service Recommendations

## Initial Recommendation

- Written recommendation
- Standing recommendation for doula services
  - The [standing recommendation issued by DHCS](#) on November 1, 2023, fulfills this requirement until the time it is rescinded or modified.
- Standard forms, such as the [DHCS Medi-Cal Doula Services Recommendation](#), signed by a physician or other licensed practitioner

## Authorized Visits

- One initial visit
- Up to eight additional visits that can be provided in any combination of prenatal and postpartum visits
  - All visits are limited to one per day per member
- Support during labor and delivery (including labor and delivery resulting in stillbirth, abortion, or miscarriage)
  - One prenatal visit or one postpartum visit can be provided on the same day as labor and delivery, stillbirth, abortion, or miscarriage support
- Up to two extended three-hour postpartum visits after the end of a pregnancy

## Additional Recommendation

- Required for additional visits during the postpartum period
- Additional visits during the postpartum period cannot be established by standing order
- The additional recommendation authorizes nine or fewer additional postpartum visits

# Documentation

The physician or licensed practitioner providing a recommendation does not need to be enrolled in Medi-Cal or be a network provider within MHC.

Doulas must document the dates, times, and duration of services provided to members.

Documentation must also reflect information on the service provided and the length of time spent with the member that day.

For example, “Discussed childbirth education with the member and discussed and developed a birth plan for one hour.”

The doula’s NPI number should be included in the documentation.

Documentation must be accessible to MHC and DHCS upon request and integrated into the member’s medical record for data reporting.

# Member Eligibility Criteria

A beneficiary must be enrolled with MHC and have a recommendation for doula services from a physician or other licensed practitioner of the healing arts for doula service eligibility.

Doulas should contact MHC to verify whether the member is enrolled with MHC for the month of service.

Members meet the criteria for a recommendation for doula services if they are pregnant or were pregnant within the past year and would either benefit from doula services or have requested doula services.

Doula services can only be provided during pregnancy, and labor and delivery, including stillbirth, miscarriage, abortion, and within one year of the end of a member's pregnancy.

# Medi-Cal Services

If a member requests or requires pregnancy-related services available through Medi-Cal, doulas should work with the member's Primary Care Provider (if that information is available) or work with MHC to refer the member to a network provider who can render the service.

Medi-Cal services include but are not limited to:

- Behavioral health services
- Belly binding after cesarean section by clinical personnel
- Clinical case coordination
- Health care services related to pregnancy, birth, and the postpartum period
- Childbirth education group classes
- Comprehensive health education including orientation, assessment, and planning (Comprehensive Perinatal Services Program services)
- Hypnotherapy (non-specialty mental health service)
- Lactation consulting, group classes, and supplies
- Nutrition services (assessment, counseling, and development of care plan)
- Transportation
- Medically appropriate community support services

# Covered Services

Doulas can offer various types of support, including perinatal guidance, health navigation, evidence-based education, prenatal, postpartum, childbirth, newborn practices, and community-based resources.

- If an in-network doula Provider is unavailable, MHC will coordinate for out-of-network (OON) access to doula services for Members.

Coverage also extends to comfort measures, such as physical, emotional, and other nonmedical support provided during labor, delivery, miscarriage, or abortion.

- Doulas may provide assistive or supportive services in the home during a prenatal or postpartum visit.
- Doulas, for example, can fold laundry while providing emotional support or advice on infant care.

Visits must be face-to-face, and the assistive or supportive service must be incidental to Doula services provided during the prenatal or postpartum visit.

- Members cannot be billed for assistive or supportive services.
- If a Member desires to have a doula during labor and delivery, MHC will work with their in-network hospitals and birthing centers to allow the doula, in addition to the support person(s), to be present.

# Non-covered Services

The following services are not covered under Medical or as doula services:

- Birthing ceremonies (i.e., sealing, closing the bones, etc.)
- Group classes on babywearing
- Massage (maternal or infant)
- Photography
- Placenta encapsulation
- Shopping
- Vaginal steams
- Yoga
- Belly binding (traditional/ceremonial)

## Note:

- Doula services do not include diagnosis of medical conditions, provision of medical advice, or any type of clinical assessment, exam, or procedure.
- Doulas may provide no cost teaching classes for members to whom they are providing Doula services.

# Claims Submission

## CLAIM REQUIREMENTS

- The extended postpartum visits are billed in 15-minute increments, up to three hours, up to two visits per pregnancy, per individual, provided on separate days.
- Claims for doula services must be submitted with allowable current procedural terminology codes as outlined in the [Medi-Cal Provider Manual, Doula Services](#).
- Fee-for-service claims for doula services must be submitted by a doula enrolled in Medi-Cal, an enrolled doula group, or an enrolled licensed provider who employs or contracts with a qualified doula.

## REIMBURSEMENT

- MHC will make payments in compliance with the clean claims requirements and timeframes outlined in the [Timely Payments of Claims APL](#). These requirements apply to both MHC and its Network Providers and Subcontractors.
- When a Member chooses to see an OON Provider for abortion services, the reimbursement rate will not be lower and is not required to be higher than the Medi-Cal Fee-For-Service rate unless the OON Provider and MHC mutually agree to a different reimbursement rate.

## BILLING EXCEPTIONS

- Doulas cannot double bill for doula services that are duplicative and reimbursed through other benefits.
- Only one doula can bill for a visit provided to the same member on the same day, excluding labor and delivery.
- The prenatal visit or postpartum visit billed on the same calendar day as birth can be billed by a different doula.

# Billing Codes

Doulas should bill with Category of Service 134 for doula services. Claims for doula services do not require a diagnosis code.

The following CPT codes may be used for all covered services when submitting claims:

## PRENATAL AND POSTPARTUM

- Z1032 – Extended initial visit 90 minutes
- Z1034 – Prenatal visit
- Z1038 – Postpartum visit
- HCPCS T1032 – Extended postpartum support, per 15 minutes

## LABOR AND DELIVERY SUPPORT

- CPT 59409 – Doula support during vaginal delivery only
- CPT 59612 – Doula support during vaginal delivery after previous caesarian section
- CPT 59620 – Doula support during caesarian section

## ABORTION OR MISCARRIAGE SUPPORT

- HCPCS T1033 – Doula support during or after miscarriage
- CPT 59840 – Doula support during or after abortion

# Key Terms & Resources

## Doulas

- Birth workers who provide health education, advocacy, and physical, emotional, and non-medical support for pregnant and postpartum persons before, during, and after childbirth, including support during miscarriage, stillbirth, and abortion. Doulas are not licensed, and they do not require supervision.

## Enrolled Doulas

- Doulas enrolled through DHCS or a Managed Care Plan (MCP).

## Full-spectrum Doula care

- Prenatal and postpartum doula care, presence during labor and delivery, and doula support for miscarriage, stillbirth, and abortion. Doula care includes physical, emotional, and other nonmedical care.

## Postpartum Period

- Doulas may provide services for up to 12 months from the end of pregnancy. Beneficiaries are eligible to receive the full scope of Medi-Cal coverage for at least 12 months after pregnancy.
