Diabetic Testing Supplies

PRODUCTS AFFECTED

Blood glucose monitoring devices, Glucose blood test strip, Insulin pen needle, Insulin syringe/needle

COVERAGE POLICY

Coverage for services, procedures, medical devices and drugs are dependent upon benefit eligibility as outlined in the member's specific benefit plan. This Coverage Guideline must be read in its entirety to determine coverage eligibility, if any. This Coverage Guideline provides information related to coverage determinations only and does not imply that a service or treatment is clinically appropriate or inappropriate. The provider and the member are responsible for all decisions regarding the appropriateness of care. Providers should provide Molina Healthcare complete medical rationale when requesting any exceptions to these guidelines.

Documentation Requirements:

Molina Healthcare reserves the right to require that additional documentation be made available as part of its coverage determination; quality improvement; and fraud; waste and abuse prevention processes. Documentation required may include, but is not limited to, patient records, test results and credentials of the provider ordering or performing a drug or service. Molina Healthcare may deny reimbursement or take additional appropriate action if the documentation provided does not support the initial determination that the drugs or services were medically necessary, not investigational or experimental, and otherwise within the scope of benefits afforded to the member, and/or the documentation demonstrates a pattern of billing or other practice that is inappropriate or excessive.

DIAGNOSIS:

N/A

REQUIRED MEDICAL INFORMATION:

This clinical policy is consistent with standards of medical practice current at the time that this clinical policy was approved. If a drug within this policy receives an updated FDA label within the last 180 days, medical necessity for the member will be reviewed using the updated FDA label information along with state and federal requirements, benefit being administered and formulary preferencing. Coverage will be determined on a case-by case basis until the criteria can be updated through Molina Healthcare, Inc. clinical governance. Additional information may be required on a case-by-case basis to allow for adequate review. When the requested drug product for coverage is dosed by weight, body surface area or other member specific measurement, this data element is required as part of the medical necessity review. The Pharmacy and Therapeutics Committee has determined that the drug benefit shall be a mandatory generic and that generic drugs will be dispensed whenever available.

- A. FOR ALL INDICATIONS, FOR NON-FORMULARY METER AND TEST STRIPS, NEEDLES, OR SYRINGES:
 - 1. Documentation of ONE of the following:
 - (a) Medically necessary justification (e.g., mental, or physical limitation) why the member needs to remain on their current glucometer/test strip/needle/syringes

 OR

Drug and Biologic Coverage Criteria

- (b) Member has a physical or mental limitation that requires the use of a specific non-formulary glucometer/test strip/needle/syringes OR
- (c) Member is currently on an insulin pump or an insulin delivery device (e.g., OmniPod) that requires a specific glucometer/test strip

CONTINUATION OF THERAPY:

N/A

DURATION OF APPROVAL:

Initial authorization: 12 months, Continuation of therapy: N/A

PRESCRIBER REQUIREMENTS:

None

AGE RESTRICTIONS:

None

QUANTITY:

Test strips:

Insulin dependent, or pregnant member: 200 strips/30 days

Non-insulin dependent member: 100 strips/30 days

OR Documentation describing need for more frequent testing

PLACE OF ADMINISTRATION:

The recommendation is that supplies in this policy will be for pharmacy benefit coverage and patient self-administered.

DRUG INFORMATION

ROUTE OF ADMINISTRATION:

N/A

DRUG CLASS:

Diagnostic Tests, Glucose Monitoring Test Supplies, Needles & Syringes

FDA-APPROVED USES:

Routine blood glucose monitoring

COMPENDIAL APPROVED OFF-LABELED USES:

None

APPENDIX

APPENDIX:

None

BACKGROUND AND OTHER CONSIDERATIONS

BACKGROUND:

The American Diabetes Association (ADA) recommends routine blood glucose monitoring in patients using insulin therapy. The ADA also notes that blood glucose monitoring may be helpful to guide treatment decisions for patients using noninsulin therapies. The ADA does not differentiate between brands of diabetic meters or test strips in their recommendation. This program allows members utilizing

Molina Healthcare, Inc. confidential and proprietary © 2025

Drug and Biologic Coverage Criteria

an insulin pump to continue on their current diabetic meter/test strip if it the diabetic meter/strip is part of the system and interfaces directly with the insulin pump.

CONTRAINDICATIONS/EXCLUSIONS/DISCONTINUATION:

None

OTHER SPECIAL CONSIDERATIONS:

None

CODING/BILLING INFORMATION

CODING DISCLAIMER. Codes listed in this policy are for reference purposes only and may not be all-inclusive or applicable for every state or line of business. Deleted codes and codes which are not effective at the time the service is rendered may not be eligible for reimbursement. Listing of a service or device code in this policy does not guarantee coverage. Coverage is determined by the benefit document. Molina adheres to Current Procedural Terminology (CPT®), a registered trademark of the American Medical Association (AMA). All CPT codes and descriptions are copyrighted by the AMA; this information is included for informational purposes only. Providers and facilities are expected to utilize industry-standard coding practices for all submissions. Molina has the right to reject/deny the claim and recover claim payment(s) if it is determined it is not billed appropriately or not a covered benefit. Molina reserves the right to revise this policy as needed.
