

IMPORTANT!

Molina Provider News:

Mandatory Change to Your EDI Integration

Effective July 1, 2022, HHAeXchange will no longer support EDI V4 visit specifications. **All providers must upgrade to the new V5 visit import specifications no later than July 1, 2022.**

After July 1st, 2022, previous specifications will no longer be supported, and this will impact your ability to import visits for EVV compliance and claim submission.

To ensure you have adequate time to develop, test, and go-live on the new V5 specifications, please reach out to your EVV EDI vendor to begin your upgrade process today.

To view and share these changes with your EVV vendor in time for the July 1st, 2022 deadline, visit the HHAeXchange Homecare Provider Integration Visit Import Guide (V5) at the URL below:

http://haxsupport.s3.amazonaws.com/SupportDocs/EDI%20Guides/EDI%20Guides_v5/Homecare_Provider_Integration_Visit_Import_Guide_v5.pdf

In addition to the current functionality of the V4 specifications, the V5 specifications allow providers to do the following:

- Manage rates at the visit level
- Perform secondary billing (TPL claims)
- Rebill via interface

If you have any questions, please contact EDISupport@hhaexchange.com. You may also contact Molina Healthcare at 855-322-4076.

Thank you for your continued care to our members!
