

Provider Memorandum

Quality Incentive Program for Women's Health Extended to Entire Fourth Quarter

Molina Healthcare of Illinois (Molina) recently announced the [2022 Quality Incentive Program](#) supporting women's wellness. Our Quality team has extended the Dates of Service (DOS) for the program.

2022 CCS BCS Program Scope

Molina offers provider incentives on Cervical Cancer Screenings (CCS) and Breast Cancer Screenings (BCS). CCS measures are directed toward female members aged 21 to 64 years, and include cervical cytology and high-risk human papillomavirus (HPV) testing. BCS measures are for ages 50 to 74 and include mammography.

Providers earn incentives for these screenings administered from **October 1 to December 31, 2022**.

Referring providers are eligible to earn **\$500 per qualified member** for Breast Cancer Screenings.

Rendering providers are eligible to earn **\$500 per qualified member** for Cervical Cancer Screenings.

It is **critical** for the provider to use the correct procedural and diagnosis codes when filing the claim in order to receive the incentives.

Reference this [2022 CCS BCS Quality Program flier](#) for complete program details, including full measures and coding guidance located in the [Availity Provider Portal](#). Payments are in addition to other Molina Incentive Programs. Molina reserves the right to modify this program.

Questions?

Providers who have questions regarding women's wellness measures or the incentives can email the Quality team at Quality-HealthCampaigns@MolinaHealthcare.com.
