MHIL Quality Incentive Program for 2023

Molina Healthcare of Illinois (Molina) introduces providers to the 2023 Quality Incentive (QI) program. As a top-performing Illinois Medicaid MCO, we know our success is rooted in our strong relationships with the provider community in caring for members.

We continue to offer a robust Pay-for-Performance (P4P) program to acknowledge those relationships and to reward high-quality care for our members—your patients. For this year, we have retained the structure from 2022. We still offer providers a Per-Member, Per-Month (PMPM) payout for each HEDIS® measure for which they improve year-over-year performance, and another PMPM payout for each measure that hits an overall performance target.

This year, however, we made the awards more attainable by:

- Offering a 2% or greater increase.
- Basing them on overall performance at the 75th percentile.

In addition to the PMPM incentive, we will continue to offer an incentive for performing certain services that close HEDIS® gaps. These per-service bonuses include a semiannual payment for rendering providers who complete [follow-ups after mental health events in the Emergency Room or inpatient stays](#), and healthy pregnancy bonuses for [seeing pregnant members in the first trimester and for timely postpartum visits](#).

Note: For best practices on how to maximize the available Provider P4P Incentives through claims coding, reference the HEDIS® Tip Sheets on the [Availity Essentials Provider Portal](#).

Molina's Quality and Provider Network teams strive to provide useful resources to maximize the bonus dollars our providers earn each year.
