October Quality Incentive Program for Women's Health

Molina Healthcare of Illinois (Molina) is committed to delivering high-quality care and services to our members, and we are pleased to introduce a Quality Incentive Program supporting women's wellness.

2021 CCS BCS Program

October is Breast Cancer Awareness Month, the ideal time for Molina to offer provider incentives on Cervical Cancer Screenings (CCS) and Breast Cancer Screenings (BCS). CCS measures are directed toward female members aged 21 to 64 years, and include cervical cytology and high-risk human papillomavirus (HPV) testing. BCS measures are for ages 50 to 74 and include mammography.

The referring provider is eligible to earn \$500 per qualified member for these vital screenings with Dates of Service in the month of October. It is **critical** for the billing provider to use the correct procedural and diagnosis codes when filing the claim in order for the referring provider to receive the incentives.

Refer to Molina's full measures and coding guidance located in the [Molina Provider Portal](#). Log in, select Forms from the menu, and scroll down to the CCS With Exclusions link and the BCS With Exclusions Breast Cancer Screening link. The PDFs will open in your browser.

Reference this [2021 CCS BCS Quality Program flier](#) for complete program details. Payments are in addition to other Molina Incentive Programs. Molina reserves the right to modify this program.
