

## In Office Laboratory Tests

The services below are allowed in a physician's office, for all lines of business. All other lab testing must be referred to an In-Network Laboratory Provider that is a certified, full service laboratory, offering a comprehensive test menu that includes routine, complex, drug, genetic testing and pathology.

For more information about In-Network Laboratory Providers, please consult the Molina Provider Directory (<https://providersearch.molinahealthcare.com/>). For testing available through In-Network Laboratory Providers, or for a list of In-Network Laboratory Provider patient services centers, please reach out to the In-Network Laboratory Provider.

**Claims for tests performed in the physician office, but not listed below will be denied.**
