

Provider notice

Important information regarding Tribal Health Clinics/Providers for Tribal members

As a healthcare professional, it is important to be aware that some of your patients may be part of an American Indian Tribe. It is important to respect their cultural identity and traditions while ensuring that they receive proper medical care. American Indian Tribe members have a right to access services from Tribal Health Clinics/Providers.* Medication prescriptions and referrals from Tribal Health Clinics/Providers must be honored in the same manner as in-network providers. This is to ensure that members receive the same quality of care regardless of the provider they choose to see.

State-recognized Tribal Health Clinics/Providers such as **Aylett Family Wellness** and **Fishing Point Healthcare** offer covered services at no cost, without a referral.

If you have any questions as it pertains to Tribal providers and covered benefits, please contact a Molina Provider Service Representative at MCCVA-Provider@molinahealthcare.com.

Sincerely,

Molina Healthcare

** Note: The services provided by Tribal Health Clinics/Providers are limited to members of the Tribal community.*
