## **Effective 1/1/2025: Important Changes to our Specialty Pharmacy Network**

Effective **January 1, 2025**, Molina Healthcare of Virginia (Molina) is implementing important changes to our Specialty Pharmacy Network. This will impact patients with complex and chronic conditions. We will inform affected members and prescribers about the process for transferring specialty prescriptions to a pharmacy included in our updated network.

Molina administers a Specialty Pharmacy Management Program that provides high-quality, cost-effective care to our members with complex and chronic conditions. Our network of specialty pharmacies is selected based on factors such as experienced clinical support, including medications, onboarding process, and personalized care management.
