## **More about me**

### **How do you Partner with people to 'clear the path ahead'?**

I partner with individuals and families to create a clear path and a solid plan that can assist them in reaching their specific goals, hopes and dreams. We will work together to identify the services that are available in your area and outlying regions. We make sure that these supports are individualized, and person-centered. We will continually review the supports to ensure that they are relative to achieving the goals identified and moving forward. Building a trusting relationship with the people I work with is extremely important. Each person's needs are different and equally important – no person's situation will ever be the same.
