Molina Provider News:

MCG Auto Auth for Advanced Imaging - Medicare

Molina Healthcare of Florida is happy to announce that through our partnership with MCG Health, we will be extending the Cite AutoAuth self-service method for all lines of business, including the Medicare line of business, to submit Advanced Imaging Prior Authorization requests effective January 11, 2023.

Cite AutoAuth can be accessed via the Availity Single Sign-on and Legacy Provider portal and is available 24 hours per day/7 days per week. This method of submission is strongly encouraged as your primary submission route. Existing fax/phone/email processes will also be available. Clinical information submitted with the PA will be reviewed by Molina. This system will provide quicker and more efficient processing of your authorization request, and the status of the authorization will be available immediately upon completion of your submission.

What is Cite AutoAuth and how does it work?

By attaching the relevant care guideline content to each PA request and sending it directly to Molina, healthcare providers receive an expedited, often immediate, response. Through a customized rules engine, Cite AutoAuth compares Molina's specific criteria to the clinical information and attached guideline content to the procedure to determine potential for auto authorization.

Self-services available in the Cite AutoAuth tool include, but are not limited to: MRIs, CTs, PET scans. To see the full list of imaging codes that require PA, refer to the PA code LookUp Tool at MolinaHealthcare.com.

If you have questions, please contact Molina Healthcare at: 855-322-4076.

Thank you for your continued care to our members!
